Contributors

PETER AHREND is Managing Director and a shareholder of Beratungs-GmbH Dr. Dr. Ernst Heissmann, Wiesbaden, a leading firm of national and international pension consultants in Germany. Mr. Ahrend is an attorney-at-law and a specialist tax lawyer who at an early stage in his professional career worked for a leading German life office. He serves as Deputy Chairman of the Board of ABA (the German Association of Pension Consultants) and head of its tax committee, and as a board member of the International Pension and Employee Benefits Lawyers Association. He is a member of the German Society of Insurance Sciences, the Examination Committee of the German Actuarial Society, the European Committee of the International Foundation of Employee Benefit Plans, and the working group on pensions of AIDA, the International Society for Insurance Law. He is the author of numerous German and international publications on pension matters, including several standard texts. He is a visiting lecturer at the University of Karlsruhe.

LUCY APROBERTS is a researcher specializing in the economics of social welfare at the Institut de Recherches Economiques et Sociales (IRES) in Paris. Ms. apRoberts is co-author, along with Emmanuel Reynaud, of *Les systèmes de retraite à l'étranger: Etats-Unis, Allemagne, Royaume-Uni* (Retirement Systems Abroad: The United States, Germany, the United Kingdom) (Paris: IRES, 1992). She has done field work on company benefit plans in France. Her research focuses on the links between state-run social insurance and occupational benefit plans in the United States and in France.

ALAN J. AUERBACH is Professor of Economics at the University of California at Berkeley and formerly taught at the University of Pennsylvania. He is the author of *The Taxation of Capital Income*, and coauthor with Laurence Kotlikoff of *Dynamic Fiscal Policy*. Dr. Auerbach served as a Deputy Chief of Staff of the United States Joint Committee on Taxa-

tion during 1992, and he speaks frequently before committees of the House and Senate. He has been a consultant to the United States Treasury, the Swedish Ministry of Finance, the Organization for Economic Cooperation and Development, the International Monetary Fund, and the World Bank. He is a Research Associate of the National Bureau of Economic Research and a Fellow of the Econometric Society. He is a member of the Executive Committee of the American Economic Association and of the editorial boards of the *American Economic Review* and the *Journal of Economic Literature*. He received his BA from Yale University and his PhD from Harvard University.

MARSHALL E. BLUME is Howard Butcher III Professor of Finance and Director of the Rodney L. White Center for Financial Research at The Wharton School of the University of Pennsylvania. Dr. Blume has conducted extensive research into investments, the financial markets, and investor behavior. His most recent book is *Revolution on Wall Street: The Rise and Decline of the New York Stock Exchange*, coauthored with Jeremy Siegel and Dan Rottenberg. Dr. Blume is a Director of the Pennsylvania Economy League and a trustee of Rosemont School. He served on the United States Government Accounting Office advisory committee that investigated the October 1987 market crash and was a commissioner on the Knoll/Shaffer Bi-Partisan Commission on Pennsylvania Pension Fund Investments that examined the state pension funds. He is a past Managing Editor of the *Journal of Finance* and is currently an editor of the *Journal of Fixed Income*. Dr. Blume received his MBA and PhD from the University of Chicago.

ZVI BODIE is the Thomas Henry Carroll Ford Foundation Visiting Professor of Business Administration at Harvard University and Professor of Finance at Boston University School of Management. Dr. Bodie is a member of the Financial Accounting Standards Board Task Force on Interest Methods and of the Pension Research Council. He coedited *Pensions and the Economy: Sources, Uses, and Limitations of Data* and textbook, *Investments*, is used as the main finance text in the certification program of the Institute of Chartered Financial Analysts. He has consulted on pension policy for the United States Department of Labor, the State of Israel, and Bankers Trust Company. Dr. Bodie holds a PhD in economics from the Massachusetts Institute of Technology and has served on the finance faculty at MIT's Sloan School of Management.

ANGELA E. CHANG is an Economist in the Banking Studies Department at the Federal Reserve Bank of New York, where she has analyzed issues in discrimination in home mortgage lending. Dr. Chang has previously done research on the trend away from defined benefit pension plans and the effect of tax policies on the pension decisions of workers and employers, and she is a contributor to the Pension Research Council

conference volume *The Future of Pensions in the United States*. She received an AB from Princeton University and a PhD from the Massachusetts Institute of Technology.

ROBERT L. CLARK is Professor of Economics and Business at North Carolina State University and Visiting Professor, Fuqua School of Business, Duke University. Dr. Clark serves as Senior Fellow at the Center for the Study of Aging and Human Development and as Senior Research Fellow at the Center for Demographic Studies, both at Duke University. He has published extensively on retirement and pension policies, economic responses to population aging, the economic well-being of the elderly, and international pensions. He is a member of the American Economic Association, the Gerontological Society of America, the International Union for Scientific Study of Population, and the National Academy of Social Insurance. Dr. Clark earned a BA from Millsaps College and MA and PhD degrees from Duke University.

E. PHILIP DAVIS is a Senior Economist at the Bank of England and research associate of the Financial Markets Group, London School of Economics. Mr. Davis currently is seconded to the European Monetary Institute in Basle, Switzerland. He has published widely in the fields of institutional investors, banking, financial regulation, corporate finance, and financial instability. He has written commissioned articles on pension funds for the World Bank, the Bank for International Settlements, the Commissariat Generale du Plan (Paris), and the Centre for European Policy Studies (Brussels), as well as the Bank of England. His first book, *Debt, Financial Fragility and Systemic Risk*, was followed by *Pension Funds, Old Age Security and the Development of Financial Systems*.

CHRISTOPHER D. DAYKIN is the Government Actuary of the United Kingdom. Mr. Daykin has been a member of the Council of the Institute of Actuaries since 1985, Honorary Secretary of the Institute from 1988 to 1990, and Vice-President from 1993. He has served as Chairman of the Solvency Working Party of the Institute of Actuaries General Insurance Study Group and Chairman of the Institute's Working Party on AIDS. Mr. Daykin currently is Chairman of the Continuing Professional Development Joint Committee for the Institute and the Faculty of Actuaries, and Deputy Chairman of the Education Joint Committee. He is the United Kingdom representative on the Pensions Observatory established by the Commission of the European Communities and the Chairman of the Permanent Committee for Statistical, Actuarial and Financial Studies of the International Social Security Association. In 1991, he was awarded a Finlaison Medal by the Institute of Actuaries. He graduated from the University of Cambridge (United Kingdom) with a degree in mathematics.

ANDREW DILNOT is Director of the Institute for Fiscal Studies, a post he

has held since February 1991. His main research interests lie in taxation and social security and government economic policy, and he has published widely in these areas. Mr. Dilnot has taught at London School of Economics, Oxford University, and University College London, as well as overseas. He is a member of the Social Security Advisory Committee; the Councils of Queen Mary and Westfield Colleges, University of London; and the Council of the Royal Economic Society. Mr. Dilnot serves on the Fiscal Studies Task Force of the Office of Science and Technology on the Effect of the Tax System on Innovative Activity. He has been a Special Adviser to the subcommittees on social security systems and taxation of investment income of the House of Lords Select Committee on the European Communities. Mr. Dilnot is a regular contributor to the printed and broadcast media. He received a BA from Oxford University.

DONALD S. GRUBBS, JR. was President of Grubbs and Company, Inc. in Silver Spring, Maryland until his recent retirement. Mr. Grubbs is a Fellow of the Society of Actuaries and of the Conference of Consulting Actuaries. He served as member of the Pension Research Council and frequent contributor at its conferences. Mr. Grubbs co-authored the sixth edition of *Fundamentals of Private Pensions* with Dan M. McGill and *The Variable Annuity* with George B. Johnson. He was the first Director of the Actuarial Division of the Internal Revenue Service and Chairman of the Joint Board for the Enrollment of Actuaries. Prior to joining the IRS, Mr. Grubbs was Vice-President and Chief Actuary for the National Health and Welfare Retirement Association. He has been a member of the Department of Labor Advisory Council on Employee Welfare and Pension Benefit Plans and has served as a consultant to numerous governmental bodies. Mr. Grubbs graduated from Texas A&M University and Georgetown University Law Center. He is admitted to the Bar of the District of Columbia.

ESTELLE JAMES is Senior Economist at the World Bank, in which capacity she served as the lead author and team coordinator of the 1994 study of old age security arrangements around the world. In addition, she is the author of *The Nonprofit Sector in International Perspective*, *The Nonprofit Enterprise in Market Economies*, *Public Policy and Private Education in Japan*, and *Hoffa and the Teamsters: A Study of Union Power*. Dr. James has written numerous articles on the economic behavior of public and private educational institutions, on the role of the non-profit sector in developed and developing countries, and other applied economics issues. Dr. James received her PhD from Massachusetts Institute of Technology in 1961.

OLIVIA S. MITCHELL is the International Foundation of Employee Benefit Plans Professor of Insurance and Risk Management and Executive

Director of the Pension Research Council at The Wharton School of the University of Pennsylvania. Concurrently, Dr. Mitchell is a Research Associate at the National Bureau of Economic Research, serves on the Steering Committee for the Health and Retirement Survey for the University of Michigan, is an Associate Editor of the *Journal of Risk and Insurance*, and sits on a National Academy of Sciences panel on retirement income modeling. She has consulted with numerous private and public organizations including the World Bank, the United States Department of Labor, the United States Department of Health and Human Services, Mobil Corporation, the Association of Flight Attendants, IBM and the United States General Accounting Office. Dr. Mitchell has published three books and numerous articles on private and social insurance, and teaches in the areas of employee benefits in the United States and overseas, private and social insurance, the aging workforce, and pensions. She previously taught labor economics at Cornell University, was a Visiting Scholar to Harvard University's Department of Economics, and served on the ERISA Advisory Council to the United States Department of Labor. She received her MA and PhD in economics from the University of Wisconsin-Madison.

JAMES E. PESANDO is Professor of Economics and Director of the Institute for Policy Analysis at the University of Toronto. Dr. Pesando has published extensively in the areas of finance and financial economics, and he researches and serves as a consultant on pension issues. He is a coauthor of *Public and Private Pensions in Canada: An Economic Analysis*. He has served as an Associate Editor of the *Journal of Finance* and as a member of the Pension Research Council. He received a BA from Harvard University, a MA from the University of California (Berkeley), and a PhD from the University of Toronto.

DAVID M. RAJNES is a doctoral candidate at the Johns Hopkins University in the Department of Geography and Environmental Engineering. His dissertation is on old age pension arrangements in central and eastern Europe, especially Hungary.

DALLAS L. SALISBURY is President of the Employee Benefit Research Institute (EBRI). Mr. Salisbury has served on the staff of the Washington State Legislature, at the United States Department of Justice, as Assistant Executive Director for Policy and Research at the Pension Benefit Guaranty Corporation (PBGC), and as Assistant Administrator for Policy and Research of the Pension and Welfare Benefits Administration, United States Department of Labor. He also has served on the ERISA Advisory Council and PBGC Advisory Committee. Mr. Salisbury is a member of the National Academy of Social Insurance Board of Directors, the Board of Directors of The Health Project, the National Academy on Aging's National Advisory Board, and the National

Coordinating Committee on Worksite Health Promotion; and is a fellow of the National Academy of Human Resources. He is on the Editorial Advisory Boards of *Employee Benefit News*, *American Compensation Association Journal*, *Benefits Quarterly*, and *Employee Benefits Journal*. Mr. Salisbury attended the University of Washington and the Maxwell Graduate School of Syracuse University.

ANTHONY M. SANTOMERO is Deputy Dean and Richard K. Mellon Professor of Finance at The Wharton School of the University of Pennsylvania. Dr. Santomero has advised the Federal Reserve Board of Governors, the Federal Deposit Insurance Corporation, and the United States General Accounting Office. Internationally, he has been a consultant to the European Economic Community in Brussels, the Kingdom of Sweden, the Ministry of Finance of Japan, the Treasury of New Zealand, the Bank of Israel, the National Housing Bank of India, and the Capital Markets Board of Turkey. He currently serves as a permanent Advisor to the Swedish Central Bank and has also served as United States representative on the steering committee of the European Finance Association. Dr. Santomero is associate editor of seven academic journals, including the *Journal of Money, Credit and Banking*, *Journal of Financial Services Research*, and *Journal of Banking and Finance*. Dr. Santomero received his AB from Fordham University, his PhD from Brown University, and an honorary doctorate from the Stockholm School of Economics.

SYLVESTER J. SCHIEBER is a Vice President of The Wyatt Company and the Director of the Research and Information Center in Washington, DC. During his professional career, Dr. Schieber has specialized in the analysis of public and private retirement policy and health policy issues and has been responsible for the development of a number of special ongoing survey programs focusing on these issues. He is a member of the Pension Research Council and a coeditor of its 1993 conference volume, *Providing Health Care Benefits in Retirement*. Prior to joining The Wyatt Company in 1983, he served as the first Research Director of the Employee Benefit Research Institute in Washington, DC. Before that, he served as the Deputy Director, Office of Policy Analysis, Social Security Administration, and Deputy Research Director, Universal Social Security Coverage Study, Department of Health and Human Services. He received a PhD in economics from the University of Notre Dame.

JOHN A. TURNER is Deputy Director of the Office of Research and Economic Analysis, Pension and Welfare Benefits Administration, United States Department of Labor, and Adjunct Professor of Economics at George Washington University. Dr. Turner formerly worked in the research office of the Social Security Administration. He received a Fulbright Senior Scholar award to do pension research at the Institut

de Recherches Economiques et Sociales in Paris in 1994. He has written or edited six books on pensions and employer-provided health benefits, one of which has been translated into Japanese. His most recent book is *Pension Policy for a Mobile Labor Force*, and he has published numerous articles on pension and social security policy. He has a PhD in economics from the University of Chicago.

MARC M. TWINNEY recently retired from a position as Director of the Pension Department of the Ford Motor Company. Mr. Twinney is a Fellow of the Society of Actuaries, and he has been a member of many professional groups, including the Conference of Actuaries in Public Practice, the Washington Pension Report Group, and Enrolled Actuaries, a consultant to the United States Civil Service system, and a member of the Committee on Pension Actuarial Principles and Practices, and of the Board of Directors, American Academy of Actuaries. He is a member of the Pension Research Council and a contributor to its conference volume, *The Future of Pensions in the United States*. He holds a BA in mathematics from Yale University and a MBA in finance from Harvard University.

DIMITRI VITTAS is Principal Financial Specialist in the Department of Financial Sector Development at the World Bank and served as a core team member for the 1989 *World Development Report*. Previously, Mr. Vittas was a Senior Consultant in the Policy and Research Group of the British Bankers Association and a Senior Economist in the Public Policy Group of the Inter-Bank Research Organization. He also has been an Economist and Loan Officer in Shipping Finance for Citibank in Piraeus, Greece, and an Economist for Doxiadis Associates, Athens. Mr. Vittas received a BSc from Athens School of Economics and a MSc from the University College London.

NORIYASU WATANABE is a Lecturer in Social Security Law at the Tokai University Law Faculty, a Lecturer in Insurance and Pensions at the Musashi University Economics Faculty in Tokyo, and the President of the International Pension Research Institute, which is a non-profit public policy research organization. He has written or coauthored eight books and numerous articles on pensions and social security policy. Mr. Watanabe has translated into Japanese many articles on pensions and social security policy in the United States, Germany, and England. He studied law and politics at the Tokyo University of Education.

CAROLYN L. WEAVER is Director of Social Security and Pension Studies at the American Enterprise Institute. Dr. Weaver is the editor of two recent AEI books, *Social Security's Looming Surpluses: Prospects and Implications* and *Disability and Work: Incentives, Rights, and Opportunities*. Before joining AEI, she was a Senior Research Fellow at the Hoover Institution

at Stanford University. Dr. Weaver has served as Chief Professional Staff Member on social security for the United States Senate Committee on Finance and as Senior Advisor to the National Commission on Social Security Reform. She is Senior Editor of *The American Enterprise* magazine and the former Editor of *Regulation*. Dr. Weaver has been a member of the economics faculties of Tulane University and Virginia Polytechnic Institute and State University, where she received her PhD.

This book was set in Baskerville and Eras typefaces. Baskerville was designed by John Baskerville at his private press in Birmingham, England, in the eighteenth century. The first typeface to depart from oldstyle typeface design, Baskerville has more variation between thick and thin strokes. In an effort to insure that the thick and thin strokes of his typeface reproduced well on paper, John Baskerville developed the first wove paper, the surface of which was much smoother than the laid paper of the time. The development of wove paper was partly responsible for the introduction of typefaces classified as modern, which have even more contrast between thick and thin strokes.

Eras was designed in 1969 by Studio Hollenstein in Paris for the Wagner Typefoundry. A contemporary script-like version of a sans-serif typeface, the letters of Eras have a monotone stroke and are slightly inclined.

Printed on acid-free paper.
