Contributors

B. Douglas Bernheim is the Lewis and Virginia Eaton Professor of Economics at Stanford University. His work focuses on taxation and fiscal policy, the determinants of personal saving, insurance issues, antitrust policy, labor market issues, and topics in mathematical economics. Professor Bernheim is a Research Associate of the National Bureau of Economic Research and a member of the Board of Directors of the American Council for Capital Formation, the Center for Policy Research, and the Commission on Savings and Investment in America. He received the bachelor's degree from Harvard University and the Ph.D. from MIT, both in economics.

Robert L. Clark is Professor of Economics and Business Management at North Carolina State University. He is the author of numerous articles and books on retirement and pension policy, economic responses to population aging, the economic well-being of the elderly, and international pensions. Professor Clark serves as Senior Fellow at the Center for the Study of Aging and Human Development at Duke University and as Senior Research Fellow at the Center for Demographic Studies at Duke University. Dr. Clark earned the bachelor's degree from Millsaps College and the Ph.D. degree in economics from Duke University.

Richard Dunn is Program Manager for Qualified Plans at General Electric Company, responsible for over \$40 billion in assets. An attorney by training, Mr. Dunn has more than two decades of pension and related tax experience. He has advised many large corporations and pension trusts, lectures on employee benefit issues, and has testified on pensions and retirement. He is affiliated with several industry organizations including the Erisa Industry Council.

William G. Gale is a Senior Fellow and the Joseph A. Pechman Fellow in the Economic Studies Program at the Brookings Institution. His research focuses on saving behavior, pensions, and tax policy. Dr. Gale has written

on how saving incentives affect private and national saving. He earned the bachelor's degree from Duke University and the Ph.D. in economics from Stanford University. He also studied for a year at the London School of Economics.

P. Brett Hammond is Director of Strategic Research at the Teachers Insurance Annuity Association-College Retirement Equities Fund (TIAA-CREF). His research publications are in the areas of pensions, higher education, science and technology, finance, and health policy. Dr. Hammond received the bachelor's degree in economics and politics from the University of California, Santa Cruz and the Ph.D. in public policy from MIT.

Richard P. Hinz is the director of the Office of Research and Economic Analysis in the Pension and Welfare Benefits Administration at the United States Department of Labor. He directs a program of research on policy issues related to the private employee benefits system within the jurisdiction of the ERISA. His office provides comprehensive statistics on ERISA plans through a variety of regular publications, funds work on employment-based health care financing and labor market issues, and conducts research on private pension benefits. Since 1991, through a program administered by the United States Department of Labor's Bureau of International Labor Affairs, he has provided technical assistance in the reform of social insurance programs and the development of private pension systems to the governments of the Czech Republic, Slovakia, Romania, Bulgaria, Poland, and Hungary. He has a MPA from Columbia University and is a CFA.

Ronald D. Hurt is Vice President for Employee Communications and Client Relations at MetLife's Defined Contribution Center. With more than twenty years experience in employee and investment communications, Mr. Hurt has responsibility for all employee communications programs for MetLife's defined contribution clients, including enrollment materials and ongoing investment education. He is also responsible for overseeing all aspects of account management and ongoing relationships with existing clients for MetLife's 401(k) business. He is a graduate of Swarthmore College.

Edwin C. Hustead is Senior Vice President in charge of the Hay/Huggins Washington, DC office and governmental actuarial and benefits consulting. He is also the leader of the Hay Group Task Force on National Health Care Reform. Mr. Hustead has conducted a number of major governmental studies on pension and health policy for agencies including the Department of Labor, Health and Human Services, Defense and the Congressional Research Service. He is chair of the Academy of Actuaries Work Group on Medical Savings Accounts. He is a Fellow of the Society of Actuaries, a member of the American Academy of Actuaries,

and an Enrolled Actuary under the Employee Retirement Income Security Act.

Richard A. Ippolito is Chief Economist at the Pension Benefit Guaranty Corporation. He has published numerous books, articles on the investment, tax, regulatory and labor market aspect of pensions, including work on the economics of pension insurance. Dr. Ippolito received the Ph.D. in economics from the University of Chicago.

Andrea L. Kusko is a Senior Economist at the Board of Governors of the Federal Reserve System. Her areas of interest include public finance and health economics. She holds a BA in economics from the University of Pennsylvania and a Ph.D. from Stanford University.

Richard G. Marcis is Assistant Vice President for Research and Deputy Chief Economist at the Investment Company Institute, where he is responsible for monitoring and analyzing economic, financial and regulatory developments in the investment company industry. Dr. Marcis has written on financial markets, monetary policy and financial institutions; he is currently president of the National Economists Club in Washington, DC. Dr. Marcis received the bachelor's degree from Wittenberg University and the Ph.D. in economics from the University of Kentucky.

Joseph M. Milano is a research assistant in the Economic Studies Program at the Brookings Institution. He has worked on issues relating to tax policy, pensions, and saving behavior. Mr. Milano received the bachelor's degree in economics from Duke University.

Olivia S. Mitchell is the International Foundation of Employee Benefit Plans Professor of Insurance and Risk Management, and Executive Director of the Pension Research Council, of the Wharton School at the University of Pennsylvania. Her research interests include the economics of retirement and benefits, social security and pensions, and public as well as private insurance. Dr. Mitchell has served on the Board of Directors for Alexander and Alexander Services Inc., the Board of the National Academy of Social Insurance, and the CSWEP Board for the American Economic Association. She is also a Research Associate at the National Bureau of Economic Research and serves on the Steering Committee for the University of Michigan's HRS/AHEAD projects, funded by the National Institute on Aging. Dr. Mitchell received the BS in economics from Harvard University and the Ph.D. in economics from the University of Wisconsin.

Brian T. Ortelere is a partner in the Philadelphia office of Pepper, Hamilton & Scheetz specializing in employee benefits litigation. He is currently researching a study on ERISA litigation practice. Mr. Ortelere earned the JD from the College of William and Mary and holds the bachelor's degree in political science from Muhlenberg College.

James M. Poterba is the Mitsui Professor of Economics at the Massa-

Massachusetts Institute of Technology, Director of the Public Economics Research Program at the National Bureau of Economic Research, Associate Department Head for Economics at MIT, and a Fellow of the American Academy of Arts and Sciences and the Econometric Society. His research focuses on the economic analysis of taxation, government expenditure programs, and financial markets. Dr. Poterba received the BS in economics from Harvard University, and the Ph.D. in economics from Oxford University.

John D. Rea is Vice President of Research and Chief Economist at the Investment Company Institute, where he supervises economic research and analyzes regulatory policy issues affecting the investment company industry. Dr. Rea holds the bachelor's degree in economics from the University of Missouri at Columbia and the Ph.D. in economics from the University of Wisconsin at Madison.

Sylvester J. Schieber is Vice President of The Wyatt Company and the Director of the Research and Information Center in Washington, DC. He is also a Board member of the Pension Research Council. Dr. Schieber writes on public and private retirement policy and health policy issues, and develops ongoing survey programs focusing on these issues. He received the Ph.D. in economics from the University of Notre Dame.

John A. Turner is Deputy Director of the Office of Research and Economic Analysis at the Pension and Welfare Benefits Administration at the United States Department of Labor; he is also Adjunct Professor of Economics at George Washington University. Dr. Turner's publications include works on pensions, employer-provided health benefits, and social security policy. He received the Ph.D. in economics from the University of Chicago.

David W. Wilcox is a Senior Economist at the Federal Reserve Board in Washington, DC. His principal research interests are household spending and saving behavior, the economics of retirement, monetary policy, and the measurement of the cost of living. He received the BA in mathematics from Williams College, and the Ph.D. in economics from the Massachusetts Institute of Technology.

David L. Wray is president of the Profit Sharing/401(k) Council of America (PSCA), a national non-profit association of companies that sponsor profit-sharing and 401(k) plans. He is also executive director and secretary of the Profit Sharing/401(k) Education Foundation and president of the International Association for Financial Participation. Mr. Wray holds the bachelor's degree in political science from Creighton University and a master's degree in political science from the University of Colorado.

The Pension Research Council

The Pension Research Council of the Wharton School at the University of Pennsylvania is an organization committed to generating debate on key policy issues affecting pensions and other employee benefits. The Council sponsors interdisciplinary research on the entire range of private and social retirement security and related benefit plans in the United States and around the world. It seeks to broaden understanding of these complex arrangements through basic research into their economic, social, legal, actuarial, and financial foundations. Members of the Advisory Board of the Council, appointed by the Dean of the Wharton School, are leaders in the employee benefits field, and they recognize the essential role of social security and other public sector income maintenance programs while sharing a desire to strengthen private sector approaches to economic security.

Executive Director

Olivia S. Mitchell, *International Foundation of Employee Benefit Plans Professor*, Department of Insurance and Risk Management, The Wharton School, University of Pennsylvania, Philadelphia.
